Personal Profile

Computer Science graduate with strong analytical, technical and problem-solving skills developed through academic coursework and personal projects. Experienced in Java programming, web development and systems-based applications with an interest in building efficient and user focused software solutions. Passionate about technology and committed to continuously developing my skills within the software development industry. Seeking a graduate or junior front- end or back-end software development role where I can contribute and grow as a developer

Key Skills

Development & Programming

- Java (Object-Oriented Programming)
- Python (basic)
- JavaScript (fundamentals)
- HTML5 & CSS3
- Git & GitHub version control
- Software testing & debugging
- VS Code / IntelliJ
- Emerging technologies
- Arduino

Education

University of Portsmouth (2021-2025)

Bachelor of Computer Science

- Developed an interactive java puzzle game using by applying object- oriented programming which improved on debugging techniques.
- Designed and implemented an IoT temperature monitoring system using Arduino gaining practical experience in hardware-software integration and sensor-based technologies.
- Developed a python graphics application in IntelliJ thar generated shapes and colours which based on user interaction, demonstrating creativity and logical programming skills

Crawley College (2018-2021)

Pearson BTEC level 3 Information Technology Extended Diploma

- Studied Website Production and Computer Networks
- Developed foundational skills in web development, IT systems and digital technologies

Personal Projects

- Built responsive web pages using HTML, CSS, and basic JavaScript focusing on clean layout and usability
- Used IntelliJ to and development tools to improve on java-based applications
- Maintained and updated projects on GitHub i.e. website projects, demonstrating version control and code documentation practices

Work Experience

Red Handling - Aircraft Cleaner (2025-Present)- Gatwick

- Worked effectively within a team to maintain high cleanliness and hygiene standards
- Demonstrated strong time management and reliability by consistently arriving on time and completing tasks

Barchester - HealthCare Assistant (2024-2025)- Horsham

- Communicated effectively with patients and residents to ensure their needs and wellbeing were appropriately supported
- Maintained accurate written records and updated care documentation to support ongoing monitoring and future reference

BlueStar Resourcing - Healthcare Assistant (2019-2024)- Crawley

- Worked collaboratively with colleagues to provide consistent and high-quality support services
- Demonstrated strong interpersonal, organisational and attention to details skills within a healthcare environment

Interests

- Enjoy playing and following football, often I take part in games with family and friends which helps to develop teamwork and communication
- Interested in problem solving games and logic-based challenges to improve on my analytical thinking
- Passionate about building personal projects like designing and developing websites to improve my technical skills and creativity

Availability

- Available for full-time or part time work
- I have a driving licence
- Portfolio/GitHub project links available above

- Open to relocation and hybrid working
